BURMA

PMI has supported
Burma to fight malaria
since **2013**

Burma's entire population
of **+47 million** is at risk
for malaria

Malaria is a major burden
in the country, with
**584K cases and 465
deaths in 2022***

The rainy season is from
May to November

PMI'S PROGRAM IN BURMA

The U.S. President's Malaria Initiative (PMI) provides vital financial and technical assistance that enables Burma to deploy lifesaving interventions proven to fight malaria for malaria elimination by 2030.

PMI is a critical funding source for vector control including insecticide-treated nets, malaria diagnosis and treatment, malaria surveillance, and more. PMI investments also support stronger, more-resilient health systems. For example, PMI helps train health workers, strengthen supply chains, improve data monitoring, and reinforce health policies.

PMI Burma's fiscal year 2023 budget was \$12 million. PMI investments support and build on those made by the Government of Burma, in coordination with other stakeholders. PMI investments are detailed in the Malaria Operational Plan for Burma**, which was developed in consultation with the National Malaria Control Program, other donors, and technical organizations. Planned PMI activities reflect national and PMI strategies, draw on best-available data, and align with the country context and health system.

PMI'S IMPACT ON BURMA'S MALARIA FIGHT

Since partnering with PMI, Burma has made significant progress against malaria. Child death rates have fallen and lifesaving interventions such as community case management and mosquito nets are reaching more people. Health systems are stronger and health workers have received more than 28,300 trainings to help them fight malaria.

50

ALL-CAUSE CHILD DEATHS (UNDER AGE FIVE) PER 1,000 LIVE BIRTHS

14%

HOUSEHOLDS WITH AT LEAST ONE NET

19%

CHILDREN UNDER AGE FIVE WHO SLEEP UNDER A NET

18%

PREGNANT WOMEN WHO SLEEP UNDER A NET

2015-2016 DHS

The U.S. President's Malaria Initiative (PMI) supports 27 partner countries in sub-Saharan Africa and three programs in the Greater Mekong Subregion in Southeast Asia to control and eliminate malaria. Led by the U.S. Agency for International Development (USAID) and implemented together with the U.S. Centers for Disease Control and Prevention (CDC), PMI delivers cost-effective, lifesaving malaria interventions alongside catalytic technical and operational assistance to equip and empower partner countries to end malaria.

TOTAL PMI FUNDING INVESTED
\$105,566,000

DELIVERED SINCE LAUNCH

 **3.5m**
mosquito nets

 **259k**
fast acting malaria medicines

 **3.2m**
rapid diagnostic tests
