CAMBODIA

PMI has supported Cambodia to fight malaria since **2013**

Approximately **half** of Cambodia's **+11.9 million** population is at risk for malaria

Malaria burden in the country is estimated at **17,600 cases and 9 deaths** in 2022*

Rainy season is from **May to November**

PMI'S PROGRAM IN CAMBODIA

The U.S. President's Malaria Initiative (PMI) provides vital financial and technical assistance that enables the Government of Cambodia to deploy lifesaving interventions proven to fight malaria.

PMI is a critical funding source for insecticide-treated nets, malaria diagnosis and treatment, vector control, therapeutic efficacy studies, and more. PMI investments also support stronger, more-resilient health systems. For example, PMI helps train health workers, strengthen supply chains, improve data monitoring, and reinforce health policies.

PMI Cambodia's fiscal year 2023 budget was \$8 million. PMI investments support and build on those made by the Government of Cambodia, in coordination with other stakeholders. PMI investments are detailed in the Malaria Operational Plan for Cambodia**, which was developed in consultation with the National Malaria Control Program, other donors, and technical organizations. Planned PMI activities reflect national and PMI strategies, draw on best-available data, and align with the country context and health system.

PMI'S IMPACT ON CAMBODIA'S MALARIA FIGHT

Since partnering with PMI, Cambodia has made progress against malaria. Child death rates have fallen and lifesaving interventions such as mosquito nets are reaching more people. Health systems are stronger and health workers have received more than 10,200 trainings to help them fight malaria.

35

ALL-CAUSE CHILD DEATHS (UNDER AGE FIVE) PER 1,000 LIVE BIRTHS

The U.S. President's Malaria Initiative (PMI) supports 27 partner countries in sub-Saharan Africa and three programs in the Greater Mekong Subregion in Southeast Asia to control and eliminate malaria. Led by the U.S. Agency for International Development (USAID) and implemented together with the U.S. Centers for Disease Control and Prevention (CDC), PMI delivers cost-effective, lifesaving malaria interventions alongside catalytic technical and operational assistance to equip and empower partner countries to end malaria.

TOTAL PMI FUNDING INVESTED
\$86,997,000

DELIVERED SINCE LAUNCH

 **1.4m**
mosquito nets

 **102.7k**
fast acting malaria medicines

 **548k**
rapid diagnostic tests
