ETHIOPIA

PMI has supported Ethiopia to fight malaria since **2008**

83.9 million, 69% of Ethiopia's population, is at risk for malaria

Malaria is a major burden in the country, with **5.1 million cases and 10,500 deaths** in 2022*

Rainy season is from **June to August**

PMI'S PROGRAM IN ETHIOPIA

The U.S. President's Malaria Initiative (PMI) provides vital financial and technical assistance that enables the Government of Ethiopia to deploy lifesaving interventions proven to fight malaria.

PMI is a critical funding source for insecticide-treated nets, malaria diagnosis and treatment, and more. PMI investments also support stronger, more-resilient health systems. For example, PMI helps train health workers, strengthen supply chains, improve data monitoring, and reinforce health policies.

PMI Ethiopia's fiscal year (FY) 2023 budget was \$36 million. PMI investments support and build on those made by the Government of Ethiopia in coordination with other stakeholders. PMI investments are detailed in the Malaria Operational Plan for Ethiopia**, which was developed in consultation with the National Malaria Elimination Program, other donors, and technical organizations. Planned PMI activities reflect national and PMI strategies, draw on best-available data, and align with the country context and health system.

PMI'S IMPACT ON ETHIOPIA'S MALARIA FIGHT

Since partnering with PMI, Ethiopia has made significant progress against malaria. Child death rates have fallen and lifesaving interventions such as mosquito nets and diagnostic testing are reaching more people. Health systems are stronger and health workers have received more than 136,700 trainings to help them fight malaria.

SINCE PMI SUPPORT BEGAN*

● Baseline ● Endline

*See the latest PMI Annual Report on pmi.gov for more detail

The U.S. President's Malaria Initiative (PMI) supports 27 partner countries in sub-Saharan Africa and three programs in the Greater Mekong Subregion in Southeast Asia to control and eliminate malaria. Led by the U.S. Agency for International Development (USAID) and implemented together with the U.S. Centers for Disease Control and Prevention (CDC), PMI delivers cost-effective, lifesaving malaria interventions alongside catalytic technical and operational assistance to equip and empower partner countries to end malaria.

TOTAL PMI FUNDING INVESTED
\$580,228,000

DELIVERED SINCE LAUNCH

 **53.3m**
mosquito nets

 Insecticide to spray **13.6m** homes

 **9.4m**
rapid diagnostic tests

 **15.6m**
Fast acting malaria medicines
