# THAILAND, LAO PDR, AND REGIONAL

PMI has supported Thailand, Lao PDR, and the region to fight malaria since **2011**

**13.6 million, 19%** of Thailand's population and **3.9 million, 52%** of Lao PDR's population, is at risk for malaria

**6,200 cases and 0 deaths** in Thailand and **3,700 cases and 3 deaths** in Lao PDR in 2022\*

Rainy season is from **mid-May to mid-October**

## PMI'S PROGRAM IN THAILAND, LAO PDR, AND REGIONAL

The U.S. President's Malaria Initiative (PMI) provides vital financial and technical assistance that enables the governments of Thailand, Lao PDR and the region to deploy lifesaving interventions proven to fight malaria for elimination by 2030.

PMI is a critical funding source for insecticide-treated nets, malaria diagnosis and treatment, and more. PMI investments also support stronger, more-resilient health systems. For example, PMI helps train health workers, strengthen supply chains, improve data monitoring, and reinforce health policies.

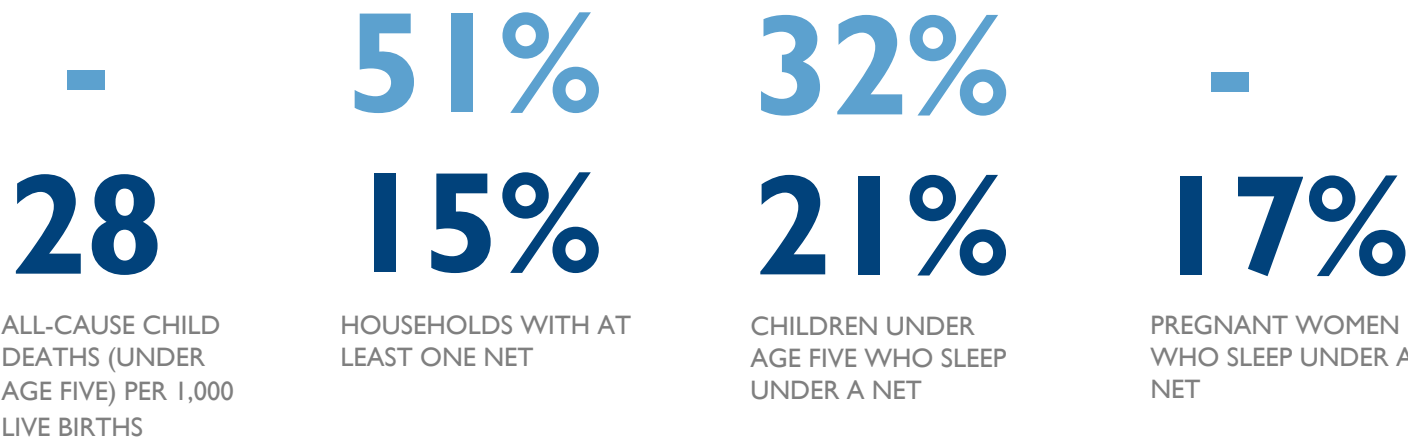

PMI Thailand and Lao PDR's fiscal year 2023 budget was \$3 million. PMI investments support and build on those made by the Thailand and Lao PDR governments, in coordination with other stakeholders. PMI investments are detailed in the Malaria Operational Plan,\*\* which was developed in consultation with the National Malaria Control Program, other donors, and technical partners. Planned PMI activities reflect national and PMI strategies, draw on best-available data, and align with the region context, priorities, and health systems.

# PMI'S IMPACT ON THAILAND, LAO PDR, AND REGIONAL'S MALARIA FIGHT

Since partnering with PMI, Thailand, Lao PDR, and the region have made significant progress against malaria. Child death rates have fallen and lifesaving interventions such as mosquito nets are reaching more people. Health systems are stronger and health workers have received more than 5,500 trainings to help them fight malaria.

The U.S. President's Malaria Initiative (PMI) supports 27 partner countries in sub-Saharan Africa and three programs in the Greater Mekong Subregion in Southeast Asia to control and eliminate malaria. Led by the U.S. Agency for International Development (USAID) and implemented together with the U.S. Centers for Disease Control and Prevention (CDC), PMI delivers cost-effective, lifesaving malaria interventions alongside catalytic technical and operational assistance to equip and empower partner countries to end malaria.

TOTAL PMI FUNDING INVESTED  
**\$59,497,000\***

## DELIVERED SINCE LAUNCH

 **1.9m**  
mosquito nets

 **231.7k**  
fast acting malaria medicines

 **1.1m**  
rapid diagnostic tests

\*\* The cumulative funding total for Thailand and Lao PDR also includes regional funding for Burma, Cambodia, and Vietnam from 2011 to 2012
